Notice of Medicare Coverage for Chiropractic Care

Your Medicare coverage of chiropractic care is limited. It does not pay for all services rendered. It will only pay for your chiropractic adjustment (manipulative treatment) when it meets Medicare's Specific rules. There are three categories of Medicare Services.

- 1). Non- Covered
- 2). Always Covered
- 3). Perhaps-covered

1. Non-Covered Services

According to existing Medicare law, most of the services in our office are Non-Covered. Here is a summary:

Examples of Non-covered services:

- Non-Spinal Manipulation to the shoulder, arm, leg, etc
- Maintenance Care- you are table and mot making any more improvement
- Wellness care- to promote better health
- X-rays
- Examination

2. Always Covered Services

A Medicare COVERED service is for when you are injured or when you are in pain due to a bad spinal condition. Medicare pays for your rehabilitation as long as you are improving. This Phase of care is called "active treatment". It will be shown on your Medicare claim form and payment reports with your service code.

3. Perhaps-Covered Services

Your Chiropractic Adjustment must be clinically needed to correct a problem of the spine, according to Medicare rules. If Medicare determines that your condition is not "Medically Necessary" they will not pay. When we know or believe that your Chiropractic adjustment is no longer covered, we will discuss this matter with you. We will also give you a Medicare Form known as the Advance Beneficiary Notice (ABN) which will show your finical obligation for continued care

MY FINANCIAL RESPONSIBILITY

I have received the above Medicare information. I understand that I am personally financially responsible for all service non-covered by Medicare. I am also responsible for applicable annual deductible and copayments.
